The hospital respects the patient's right to participate in decisions about his or her care, treatment, and services.

Note: For hospitals that use Joint Commission accreditation for deemed status purposes: This right is not to be construed as a mechanism to demand the provision of treatment or services deemed medically unnecessary or inappropriate.

Element of Performance: 1

The hospital involves the patient in making decisions about his or her care, treatment, and services, including the right to have his or her family and physician promptly notified of his or her admission to the hospital.
Note: For hospitals that use Joint Commission accreditation for deemed status purposes and have swing beds: The resident has the right to be informed in advance of changes to their plan of care.
